Slap-dash Digest
Slapdash Digest features the work of 21 photographers involved in Artist+Camera+Book, a Themes and Practices course in the Fine Arts Department of Kutztown University of Pennsylvania. The participants responded to a challenge to bring 6 of their best or favorite photographs they had made in the past year to the table. These were to be images not made for specific projects or purposes — just images that captured the photographer’s attention because the situation and/or subject was interesting or evocative. The photographers were then arbitrarily divided into four work groups who edited, sequenced, then designed a chapter of this publication.
